

RECOVERY TO CAREER

Your recovery journey can be the beginning of your next professional chapter.

Recovery can build strengths employers value.

Consistency, problem-solving, communication, resilience, accountability and the ability to ask for support can all become part of a strong workplace story.

A SIMPLE PATH FROM RECOVERY TO WORK

1 STABILIZE

Build routines that support recovery, health, transportation and reliable attendance.

2 EXPLORE

Identify strengths, interests and jobs that match the life you are building.

3 PREPARE

Update your resume, practice interviews, gather documents and identify references.

4 CONNECT

Use career centers, peer networks, recovery organizations and supportive employers.

5 GROW

Build skills, pursue training or credentials, and plan the next step after your first job.

START WITH THESE KENTUCKY CAREER RESOURCES
